Summary

I am a hardworking coder who loves solving intricate problems, who is interested in learning about new technologies and I consider myself a life long learner. I consistently try to stay up to date on the latest technological advancements and pride myself in the consistent upscaling of my skills. As a person who learns new skills quickly and enjoy innovation and working within teams of other passionate developers.

My growing skill set includes:

- Python
- SQL
- Java
- HTML
- CSS
- Javascript
- Visual Basic
