## Summary

I am a dedicated and enthusiastic coder with a strong passion for solving complex problems. I have a natural curiosity for learning about new technologies and consider myself a lifelong learner. Keeping pace with the latest advancements is a priority for me, and I take pride in continuously upscaling my skills.

My ability to quickly grasp new concepts and my passion for innovation make me an asset in any development team. I thrive in collaborative environments, working alongside other talented developers who share the same dedication and drive. I enjoy the synergy that comes from working together to create cutting-edge solutions.

In my journey as a software developer, I have acquired proficiency in Python, Java, HTML, JavaScript, C# and CSS. These skills enable me to contribute effectively to various software projects and tackle challenges with confidence.

I am excited about the opportunity to join a tech company that values continuous learning, teamwork, and a fast-paced culture. I am eager to apply my problem-solving skills, passion for technology, and commitment to personal growth to make a meaningful impact within a dynamic and innovative organization.

## Experience

### Software Developer Intern

OUTsurance

Mar 2023 - May 2023 (3 months)

## Education

### WeThinkCode

Sep 2021 - Mar 2023

### University of Johannesburg

Accounting Sciences

Feb 2016 - Dec 2019

Incomplete

### University of the Witwatersrand

Civil Engineering

Feb 2015 - Sep 2015

### Pinetown Girls' High School

Jan 2010 - Dec 2014

## Licenses & Certifications

 Introduction to Programming Using Python - HackerRank

## Skills

Communication • Programming • .NET MAUI • Angular • Angular CLI • Databases • C# •  
Angular Material • Dependency Injection • SOLID Design Principles
